

Team Name: sdmay21-20

Team Members: Eli Davidson, Andrew Jacobson, Nikhil Sharma, Wyatt Syhlman

Report Period: Sept 21-Oct 4

Summary of Progress in this Period

During this period, we had an initial conversation with our company contact, Nathan Meyers. This gave us a good basis to start working on the design template and on the research portion of our project.

We also started working on the Design Document - Rev. 1.

Pending Issues

Initial brainstorming for original sensors.

Plans for Upcoming Reporting Period

We plan to visit Stellar Industries on Wednesday, October 7. This will allow us to get a clear image of what is currently in use and the type of sensors. We also want to get a clear image of the kind of cranes that Stellar currently makes.
