

Team Name: sdmay21-20

Team Members: Eli Davidson, Andrew Jacobson, Nikhil Sharma, Wyatt Syhlman

Report Period: Oct 26 - Nov 8

### **Summary of Progress in this Period**

During this period, we ordered parts to commence testing. We met with Nathan Meyer of Stellar Industries on 11/4 to discuss what solutions we had come up with. We also met with Mahmoud Gshash, a TA for EE 491, to discuss our Design Document and give guidance on following steps.

---

### **Pending Issues**

- Start testing on the gyroscopic and inductive sensors.
  - Create a team website.
  - Finish the Design Document.
- 

### **Plans for Upcoming Reporting Period**

For the upcoming reporting period, we plan to commence testing on various sensors we received. We will also finalize our team website and the design document, as well as start running simulations on sensors.
